

APPEALS TO PEOPLE TO AID DEFENSE

Garrison Addresses New York State Bankers' Association

OPPOSITION ORGANIZED

War Secretary States There Must Be Standing Army and Troops for Instant Use

IS THE PEOPLE'S QUESTION

NEW YORK, Jan. 17.—An appeal to the people of the United States to organize in support of a systematic national defense was voiced by Lindley M. Garrison, secretary of war, in an address tonight at the annual banquet of Group 8, of the New York State Bankers' association.

Opposition Well Organized.

Group 8 is composed of the bankers of New York City. Secretary Garrison declared that the opposition to national defense is well organized and that unless the people of the country urge upon congress that they desire adequate national defense, the present system, which the speaker said was "utterly inefficient," would be retained.

National defense, the secretary said, must rest upon national force. Unity of responsibility, authority and control is the essential principle of all military affairs, he said. A real military policy, Secretary Garrison asserted, must be continental in scope and the federal government must be in authority. All proposals, he said, to build a military system for the United States upon the basis of state troops are proposals to continue to a situation that is "illusory and not real, that is a sham and is not substantial, that is a mockery and not honest."

Should Be National Troops.

The secretary said that while there is disagreement among military experts as to the particular number of troops needed, all views agree upon the essential principle that the troops should be national troops. There must be, he continued, a regular standing army and organized federal troops subject to instant call. This, he said, has been called a continental army. In support of this principle, the secretary said, there must be cohesive organization to combat the elements supporting a similar system founded upon troops under state authority.

After tracing the agitation which led up to the formation of plans for national defense by the national administration, Secretary Garrison said:

"The effect of the agitation of this question was to bring it sharply home to the citizens. They demanded the adoption of a real military policy. Unless they pursue that demand insistently and persistently until it has been enacted into law, their purpose will be thwarted. The opponents of the real national defense, although a small minority, are vigorous and vocal and very busy."

Supporters Are Divided.

"The opposition also actuated by widely differing motives is united in antagonism. The supporters of real national defense are divided and dispersed and therefore, ineffective. They are wasting their strength by fighting against each other over details. Unless it is settled by affirmative legislation that the nation shall raise, organize, officer, train and at all times control the national forces for national defense, all the other things that are done and left undone are of little or no moment."

"You cannot possibly have any military system worthy of the name based upon forty-eight separate armies, operating under forty-eight separate authorities, raised, officered and trained by forty-eight separate commanders-in-chief. And the suggestion that this incoherent, utterly insufficient system is turned into effective and trustworthy system by merely providing that the men who go into the state organization must agree to serve the national government in time of war, is deceptive in the extreme."

U. S. Must Control Forces.

"That is our present system, or more properly speaking, lack of system. What is suggested is that the national government which has the most ample power to raise, train and control national forces for national defense shall not only refrain from exercising this power, but shall parcel it out to the forty-eight states of the union and then buy back some measure of authority and jurisdiction."

"That this ineffective and dangerous result is more imminent than the majority of people have any idea of, is what I have here to say to you. Those whose self interest and purpose lies along the line of diverting the public demand for real national defense and securing this sham policy are energetic and active to procure just that result. Their announced and declared purpose is to add a few thousand men to the existing organizations of the regular army to pass the militia pay bill and to stop there."

"If that is all that people of this

PREDICT QUORUM WILL NOT BE PRESENT IN HOUSE

VERY FEW MEMBERS OF LEGISLATURE REACH SPRINGFIELD

With Lawmakers Who Arrived Came
What May Develop Into Serious
Opposition to the Election Bills.

Springfield, Ill., Jan. 17.—So few members of the legislature were in Springfield tonight that predictions were made that a quorum might not be present at 10 o'clock tomorrow morning for the beginning of the second and probably the last week of the second special session.

With the lawmakers who had arrived came what may develop into serious opposition to the election bills and the proposed amendment to make it easier for counties to vote bonds for good road purposes, passed by the state senate last week. Some of the down state members tonight contended that the road law amendment would make it too easy to vote counties into debt. Cook county members were not of one accord regarding the election measures, most of which affect only Cook county. The house will meet at 10 o'clock tomorrow morning, but the senate will not convene until 5 o'clock in the evening. The house will immediately begin consideration of measures passed by the senate last week. Leaders hope that the special session will be able to complete its work by Wednesday or Thursday. It is then planned to adjourn the session until February 23, the day to which special session No. 1 was adjourned. The adjournment to February will be taken so that another call for a special session will not have to be issued in case of further adverse decisions in connection with the Ferguson suits.

DANIELS NAMES COURT OF INQUIRY TO PROBE SUBMARINE EXPLOSION

Condition of Civilian Workmen Injured Aboard the E-2 Is Reported to Be Favorable—Three Enlisted Men in Serious Condition.

Washington, Jan. 17.—A court of inquiry was named by Secretary Daniels today to investigate, determine the cause and fix the responsibility for the explosion aboard the submarine E-2 in New York navy yard Saturday, which caused the death of four men and seriously injured ten others. The court of inquiry will be composed of the following officers, all experienced in submarine work:

Captain William H. G. Bullard, Lieutenant Commander H. G. Sparrow, Lieutenant Clyde S. McDowell and Lieutenant Joseph O. Fisher.

Secretary Daniels said today he had asked congress for an initial appropriation of \$1,000,000 for the erection of a laboratory for experimental work and that no new machinery would be placed aboard any vessel until it had been thoroughly tested and its safety guaranteed.

The condition of the civilian workmen injured aboard the E-2 was reported to be favorable today. Three enlisted men were said to be in a serious condition.

UPHOLD LIABILITY LAW.

Washington, Jan. 17.—Validity of the Indiana employers' liability law was upheld today by the supreme court in approving a verdict of \$12,000 recovered from the Vandavia railroad by Charles Stillwell, brakeman, for injuries.

PLEADS NOT GUILTY.

White Plains, N. Y., Jan. 17.—Thomas Mott Osborne, former warden of Sing Sing prison, pleaded not guilty today before Justice Morschauer to the indictment charging him with perjury. His trial was set for February 7.

country want, then they have agitated themselves to no purpose and have wasted their time and their nerve force and their brain force unnecessarily. If this is a satisfactory solution, no effort whatever upon anybody's part will be necessary to secure that.

Let the supporters of a real military system agree that whatever forces the nation is to rely upon shall be raised, maintained and controlled by the federal government, and these subsidiary questions will be worked out in due time and be properly settled.

Is the People's Question.

"This whole question is the people's question. It is personal, partisan or political. If the people want it and will keep after it, as they always do after anything they really want, they will get it. If, however, they satisfy themselves with once having reached the point of demanding it, and then turning aside to other matters and permitting themselves to be diverted from the main issue then they will not only not get what they demanded, but will find their opponents have fastened upon them a military system absolutely ineffective and dangerous which will make it difficult, if not impossible to get the necessary thing at a later period."

"It lies with the people who must impress upon their representatives in congress their firm, undeviating determination to have this matter settled right and settled now."

Other speakers were Dwight W. Morrow, Augustus Thomas and Maj. Gen. Leonard Wood.

ATHENS, Jan. 17.—Via London.—The Greek government, in agreement with the king, will proclaim martial law this week, according to the newspaper Kairos. The parliament, which will meet next Monday is expected to ratify this measure.

BULLETIN.

PETROGRAD, Jan. 17.—Via London.—An official communication issued today says that on the western Russian front German aeroplanes have raided Shlock, Kurtenhof and Dvinsk.

BULLETIN.

BERLIN, Jan. 17.—By Wireless to Sayville.—Trenches in the Oslav sector on the Italian front, which had been taken by the Austrians recently, were evacuated by their Austrian occupants owing to the concentrated fire of the Italian artillery, it was announced today by Austrian headquarters in an official statement received there from Vienna.

Beset on the north, east and west by Austrian-Hungarian armies and with all lines of retreat cut off, except into Albania, where hostile tribesmen must be faced, Montenegro has asked Austrian-Hungary for peace and her request has been granted. The unconditional laying down of arms by Montenegro was made the basis of the opening of peace negotiations and Montenegro accepted these terms imposed by the dual monarchy.

This announcement was made to the Austrian parliament by Minister Tisza and it met with an ovation on the part of the members of the chamber. Thus comes the first withdrawal of any belligerent from either of the alliances that have been fighting with each other since August, 1914.

It had been conceded for days that the situation of Montenegro was a critical one. Although the army of the little kingdom fought valiantly against the Austro-Hungarian forces it was unequal because of inferior forces, lack of guns, it has been stated, a shortage in commissariat supplies, to the task of holding back the armies that had in conjunction with their allies succeeded in crushing Serbia.

Already the Montenegrin capitals and many of its important towns had fallen into the hands of the Austro-Hungarians and the invaders were well on their way to Montenegro's chief seaport—Antivari.

Last accounts had the Montenegro government at Scutari. The whereabouts of King Nicholas is not known.

The British and Russians in Mesopotamia and the Caucasus region, respectively, are pressing the Turks hard. The army of King George, coming northward from the Persian Gulf to the relief of the British forces at Kut-El-Amara, has driven the Ottomans to within six miles of the beleaguered town on the Tigris.

The Russians in their drive along the front of nearly 100 miles in the Caucasus have won additional points of vantage from the Turks and especially in the Arasa and Indis valleys. Constantinople admits this, but says that south of the Arasa in hand-to-hand fighting in a Russian advanced position heavy casualties were inflicted on the Russians by the Turks.

On the other fronts little fighting of moment has taken place.

PREPARED TO TAKE UP QUESTIONS.

Washington, Jan. 17.—The Austro-Hungarian government according to authoritative information here today is prepared to take up with the United States the question involved in permitting merchant ships armed for defensive purposes to leave American ports. A communication to the state department on the subject probably will be sent immediately if another Italian ship follows the lead of the Giuseppe Verdi and enters an American port with guns mounted.

PLANS SUBJECT OF EXCHANGES

Washington, Jan. 17.—Plans of the entente allies to declare a formal blockade of German ports, it was learned tonight, have been the subject of exchanges between diplomatic representatives of the allies here, and in an informal way, between the diplomats and officials of the state department.

RODRIGUEZ' BODY REACHES JUAREZ

Col. Baca-Valles Will Be Executed This Morning

TO EXHIBIT BODIES

Commandant at Juarez Says Remains Will Be Packed in Ice and Placed on View at Station

FOREIGNERS REACH CHIHUAHUA

EL PASO, Texas, Jan. 13.—The special train bearing the refugees from the Parral and Arango districts, arrived in Juarez at 1:55 this morning. Passengers were at once escorted to the international bridge by Mexican troops.

EL PASO, Tex., Jan. 17.—The train from Madera, Chihuahua, bearing a body which Mexican officials at Juarez declared to be that of Gen. Jose Rodriguez, the Villa bandit chief, reported officially to have been executed last Thursday, reached Juarez at 10:50 o'clock tonight.

Colonel Baca-Valles, the Villa bandit leader, reported by Juarez officials to have been executed with Lieut. Col. Enrique Cisneros at Palomas was brought in alive on the train which bore the body of General Rodriguez. He will be executed tomorrow morning at 5 o'clock and his body exhibited with that of Rodriguez at the railroad station of Juarez, Mexican officials asserted.

The announced purpose in bringing the body to the border was to prove to Americans that the man who was said to have been in general command of the bandits that slaughtered eighteen Americans at Santa Isabel last Monday, really has been captured and executed. However, no one was permitted to view the body tonight, according to Mexican officials.

General Gabriel Gavira, Commandant at Juarez, said that the bodies of the two late outlaw leaders would be packed in ice and placed on view at the railroad station tomorrow morning at 9 o'clock.

Foreigners Reach Chihuahua.

Chihuahua City, Mex., Jan. 17.—Under a strong escort of Carranza troops, equipped with eight machine guns, 115 foreign and a few Mexican employees of the mining camps along the Parral and Durango railroad, reached here today. The special train on which they traveled left late today for Juarez. Passengers from the mining camp of Mistral reported the looting of the camp by Villa bandits before they left. The bandits took all the money and horses in camp but offered no personal violence. All but a few of the passengers came from Parral. Sixteen foreigners including two women Protestant missionaries, Miss Prescott and Miss Dunning, elected to remain here for the journey to Juarez.

May Hold Carranza Responsible.

Washington, Jan. 17.—Whether the Carranza government in Mexico is to be held responsible by the United States for the death of the American mining men slain by bandits near Santa Isabel, may depend upon the outcome of an investigation of a circumstantial story which reached the state department today telling how the murdered Americans had been assured a safe conduct by Carranza authorities. Officials indicated tonight that the evidence so far was not conclusive and that no decision would be reached pending a thorough inquiry. They pointed out also that should Carranza eventually be held responsible that would not mean a break in this government's relations with him, tho it would result in a demand for indemnity in addition to punishment of the murderers already demanded and promised.

Expect Americans in El Paso.

El Paso, Tex., Jan. 17.—Approximately 100 out of the 1,000 Americans and other foreigners who remained in Chihuahua state after the massacre at Santa Isabel a week ago today were expected to arrive here late today, most of them coming from the Parral district, about which there are said to be operating Villa bandits.

A number of Americans who arrived last night from Chihuahua state verified reports of Jose Rodriguez' execution. Jose Zozaya, El Paso, was arrested today on an indictment returned recently at San Antonio charging him with participation in the alleged conspiracy of General Huerta to start a new revolt in Mexico.

PROSPECTS FOR WAGE AGREEMENT BRIGHT

OPERATORS AND UNION MINERS AGREE TO HOLD CONFERENCE

Will Negotiate a New Four-state
Scale at Meeting in Mobile, Ala.,
Beginning Feb. 2.—Agreement is
Reached in Meeting in Indianapolis.

Indianapolis, Ind., Jan. 17.—Prospects for an inter-state wage agreement in the central competitive bituminous coal fields were considered bright tonight after it was announced that the operators and union miners of Western Pennsylvania, Ohio, Indiana and Illinois had agreed to hold a joint conference for the purpose of negotiating a new four-state scale. The meeting will be held in Mobile, Ala., beginning Feb. 2. This agreement was reached at a meeting of operators and miners today at which John P. White, International president of the United Mine Workers, which opens its biennial convention here tomorrow presided. Today's conference was the continuation of a meeting held in Chicago recently. The operators from Central Pennsylvania did not attend the Chicago meeting.

It was said the Pennsylvanians held some advantages in the present agreements with their workers not possessed by the operators in the other states and did not care to risk losing them by going into an inter-state agreement. However, after a conference among the operators the Western Pennsylvania employers agreed to participate.

The proposal for an inter-state joint conference came from the miners, and the operators announced that they would agree if it were held outside the four states interested so that the deliberations might not be influenced. The union officials readily agreed.

In the event the miners' convention continues in session until Feb. 1st the Mobile meeting will be postponed until the union officials are able to go south. The miners and operators in the four states are at present working under separate state agreements which expire March 31. Two years ago mine owners and operators in the four states attempted to negotiate an interstate agreement at Philadelphia but it failed. The international convention will adopt a policy and the mine workers in their negotiations at Mobile will be governed by the instructions of the convention. The Ohio miners will ask the convention to endorse a demand for a ten per cent increase in wages.

The representation in the Mobile conference will be eight operators and eight miners from each state. The international convention of the union this year, according to the credentials committee, will have in attendance about 1,300 delegates. Former conventions numbered about 1,500. The reduction is due to some local unions joining in sending delegates to represent more than one local in order to save expenses.

There was general agreement that demands of Anthracite mine workers will not take up much time of the convention. The demands have the approval of President White and the convention is expected to endorse them.

CLAY MODELING, AS CURE FOR INSANITY SUCCEEDS GOLF

SPRINGFIELD, Ill., Jan. 17.—Clay modeling as a cure for insanity has succeeded golf at the state hospital for the insane at Tiffin, Ill., according to an announcement here today by Dr. George Zeller of Peoria, alienist of the state board of administration.

"Golf is impossible in the winter for most of the patients, but clay modeling is a year round occupation that takes the patients' shattered minds off their troubles," said Dr. Zeller. "We have been fortunate in securing Miss Helen Morton of Wheaton, Ill., as an instructor. She is prominent in society there, but gave up her career of life there to instruct the unfortunate Elgin in clay modeling. We have fitted up a studio for her at the hospital and she is serving without compensation."

MICHIGAN BANK WRECKER TAKES ALL BLAME.

CHARGE CONSPIRACY TO COMMIT FELONY

Police Allege Men Plotted to Kill Their Father and Mother

TO BE EXAMINED JAN. 26

Father Asks That Irving Uptide Be Held on a Charge of Insanity

MAKE CONFESSIONS PUBLIC

CHICAGO, Jan. 17.—Irving and Herbert Uptide were arraigned before Justice Kendall this afternoon charged with conspiracy to commit a felony, and were committed to the county jail in bonds of \$5,000 each. They will be examined January 26th. The two men were arrested last night after police unearthed an alleged plot, the sons had made, to kill their father and mother.

Before the court proceedings, Furman D. Uptide, the father, a retired board of trade man, asked Chief of Police Lee of Oak Park, to place a charge of insanity against Irving, the elder of the young men, but the official while practically certain that Irving was mentally defective thought it better that the regular procedure be followed for the time being at least. The father also suggested that he would send Herbert out of the country if prosecution were dropped, but this Chief Lee would not do, altho he said he was satisfied that Herbert merely pretended to fall in with the plans of his brother to murder the parents last night.

The latter said today that they were satisfied that an injury to his spine when he was a boy accounted for Irving's designs against them. They hoped a surgical operation might restore his mental balance.

A transcription of the record of the alleged conversation in the garage between Irving and Herbert was made public tonight by police. It was taken by a stenographer concealed nearby.

It was their final rehearsal of carefully laid plans before acting. Both were to be closely muffled. Irving was to do the shooting while Herbert waited nearby in a dark street in the automobile. Reference was made only to killing the father.

"It'll be over in a minute," said Irving. Their further plans contemplated a quick run in the machine to the drainage canal where the weapons were to be sunk, and a quick return to the house.

"Go in now and get your overcoat and we'll return to the garage," Irving is quoted as saying, and at this point detectives, who had been told of the plot, and lay in wait with two stenographers, stepped in and made the arrests.

A confession which the police said was made by Irving last night also was made public. He admitted the conversation with Herbert and that he said, according to the police, that they had often spoken of how the murder of their parents might be accomplished. He insisted, however, that they never had any intention of translating their words into action.

"In the first place I wouldn't do such a thing, and in the second I haven't the nerve," he is quoted as saying. He said that his father treated him generously but was suffering from cancer which "made it difficult for other members of the family."

"Do you think that you are wholly sane?" he was asked.

"Yes, I do," he replied.

What Fresh Air Will Do.

Some interesting figures have been compiled in Winchester, Mass., as an argument in favor of the open air system in school rooms. In this particular instance in one seventh grade the room was so changed that a full supply of fresh air could be admitted. The experiment was tried for four months and from a physical standpoint only the growth and condition of the pupils in the open air school were compared with those pupils in another seventh grade.

The effort was to have two rooms of pupils who came from about the same home environment; and were in about the same general condition at the beginning of the test. At the end of the four months pupils in the open air room had gained in weight an average of 3.61 pounds, while the pupils in the other room had gained an average of 1.79 pounds. In weight the gain was about the same per cent in favor of the open air pupils, and the red blood test showed that the open air class had made a gain of 1.55, while the other class showed a loss of 2.07.

Strange Political Alliances.

In the turmoil of politics many strange alignments happen and especially in Cook county. Now it is said that the Sullivan and Dunne forces have united for the purpose of keeping Carter Harrison from being a delegate to the national Democratic convention. Mr. Sullivan hates Governor Dunne because of the manifesto in which the governor joined two or three years ago, declaring how serious a mistake the people of the state would make if they chose Sullivan senator. Carter Harrison wrote part of that manifesto, but that is not the only grudge that Roger holds against the former mayor, and so while he dislikes the governor, his feeling toward Harrison is even more bitter, and in order to punish him he is willing to join with enemies. It is not a new situation in politics, especially in Cook county, where war is being continually waged for control. And in both Democratic and Republican parties the unusual spectacle is presented of leaders temporarily aligning themselves with those who have been known as their avowed enemies in

Rippling Rhymes

By WALT MASON

THE WINTER DAY.

The leaden clouds were blown away, the sun got busy overhead; it was a perfect winter day, without a blemish, critics said. The judges who had passed on days, at many a state and county fair, admitted that we couldn't raise a finer sample anywhere. I walked nine miles, just to inhale the crisp,

keen air that braced like wine; it seemed to render sound and hale these ancient, spavined men I met mine. And nearly every man I met was grumbling at that perfect day—"We do not want spring weather yet—it's bad for us," I heard men say. "Such weather will relax the pores, and leave us open to disease, and when again the tempest roars, we'll have rheumatism in the knees. These balmy days are simply snares, designed to kill off human wrecks, and when again the blizzard tears, we'll have lumbago in our necks." I get discouraged, oftentimes, there are so many joys on earth, who simply won't indulge in smiles, but dish up brine, a jitney's worth. The sun may shine, and breezes sweet as Eden's splay airs may blow, and still they'll kick with all their feet, and make a specialty of woe.

The Changes That Time Brings.

In the light of the events of the last fifteen months, how strange this inscription reads which was penned just forty-five years ago today. It was the pledge of the German emperor given in 1871 on the occasion of the ceremony which was said to mark the birth of the German empire as arranged by Bismarck, culminating his hopes and ambitions. The pledge was in these words: "To aid at all times the empire's growth; not by the conquest of the sword, but by the good gifts of peace, in national prosperity, freedom and culture."

It is related that the ceremony at which this historic statement was made took place in the famous "Hall of Mirrors," that had been built at Versailles by Louis XIV., king of France, as a memorial of France's triumphs. Two centuries after King Louis had erected his triumphal hall it was the scene of Bismarck's triumph, and there German kings, princes and noblemen gathered January 18, 1871, to celebrate the downfall of France and their rival thru the ages, and to attest the views of the mastermind of Bismarck. "Good gifts of peace in national prosperity, freedom and culture," has a strange sound when one connects them with the happenings in Europe in these later days. Yet not to Bismarck alone can be attributed statements made long at utter variance with affairs today, for leaders of the other nations which are at war, have made, from time to time pronouncements indicating just as lofty hopes and ideals for peace and world happiness.

The Pernicious Income Tax.

A scheme for robbing the north for the benefit of the south would be an excellent description of the federal income tax under Democratic regime and in the fact that it works that way is probably to be found the reason for the apparent determination of the Democratic majorities to make good some considerable portion of the deficit produced by the Underwood tariff bill and general Democratic inefficiency by an increase of the income tax.

The annual report of the Democratic commissioner of internal revenue clearly shows where the tax is collected, while the most cursory examination of the appropriations of the Democratic congress establishes with equal clearness that the lion's share of the federal revenues is being expended in the southern states. It is noteworthy that state, county and municipal taxes are almost invariably expended in the communities in which they are collected, thus returning in some form to benefit those who pay them. Not so the federal taxes, which are collected in those states where the people show the greatest ability and business enterprise and, under a Democratic administration at least, are expended in those states which pay the smallest proportions.

Take the official figures for the individual income tax for the fiscal year ending June, 1914, and compare the \$2,679,630 paid by Illinois with the \$125,631 paid by Texas, the \$1,240,591 paid by California with the \$165,994 paid by Tennessee, the \$2,683,984 paid by Massachusetts with the \$197,559 paid by Virginia, the \$264,315 paid by Iowa with the \$84,633 paid by Alabama, the \$581,419 paid by Minnesota with the \$119,983 paid by Georgia, the \$128,735 paid by Nebraska with the \$12,369 paid by South Carolina, the \$1,489,461 paid by Ohio with the \$121,368 paid by Florida, the \$94,975 paid by Kansas with the \$34,664 paid by Mississippi, and the \$1,533,829 paid by Michigan with the \$209,813 paid by Louisiana.

The eleven southern states which constitute "the solid south" pay a total individual income tax of \$1,564,624, while eleven northern states—exclusive of New York, which pays the largest tax of any state—pay a total individual income tax of \$1,125,744. With the southern Democrats in control of the white house and both houses of congress, and diverting the lion's share of the federal expenditures to their section of the country is it any wonder that they regard an individual income tax as an ideal method of making good the Democratic deficit?

C. D. KAPPAL DIES AT MEREDOSIA HOME

PROMINENT CITIZEN ANSWERS SUT-LEN SUMMONS MONDAY.

Mrs. Eliza McLain Passes to Final Reward Monday Morning—Death Took Place at Home of Daughter, Mrs. Ellen James—Other Meredosia News.

Friends in Morgan county will hear with deep regret of the passing of Christopher D. Kappal, who succumbed to a heart attack Monday evening at his home in Meredosia and died without regaining consciousness. Death came at 8 o'clock after an illness of but short duration. Mr. Kappal had for some time been in bad health and some three weeks ago returned from a hospital in Jacksonville where he had been taking treatment. He was thought to be well on the way to recovery when the illness came which brought on death.

Mr. Kappal was one of the best respected citizens of Western Morgan county. He was a member of the firm, Kappal Bros. & Co., one of the well known fur trading establishments of the country, and had formed friends and business associates in many cities.

Mr. Kappal is survived by his widow, whose maiden name was Miss Etile Steinberg; a brother, C. H. Kappal of Meredosia, and three daughters, Miss Tena Kappal, at home, Mrs. Roy Burrus and Mrs. Wilbur Burrus of McKendree Chapel.

Mr. Kappal was a leading member of the Lutheran church at Meredosia and was highly respected as a devoutly Christian man. He was an Odd Fellow and a member of the Masonic order.

Announcement of the funeral will be made at a later date.

Death of Mrs. McLain.

The death of Mrs. Eliza McLain occurred Monday morning at 6:20 o'clock at the home of her daughter, Mrs. Ellen James, in Meredosia. Mrs. McLain had been in poor health for a number of years but was taken down with lagrippe about two weeks ago and this illness caused her death.

Mrs. McLain's maiden name was Eliza Horton Sharp, and her father was a native of Switzerland. She was married Aug. 2nd, 1846 at Arenzville to Wm. P. McLain who preceded his wife in death sixteen years ago. To this happy union thirteen children were born, ten of whom lived to be grown, and are still living, with one exception, Thomas, dying in 1896. Those living are Mrs. Alice Wade, Mrs. Ellen James, Mrs. Melvina James, J. D. McLain, C. W. McLain, J. L. McLain of Meredosia; Mrs. Matilda Murphy of Des Moines, Ia.; Mrs. Viola Bruce of East St. Louis, and Mrs. Martha Hobrook of Minneapolis, Kansas. She also has 29 grandchildren and 44 great grandchildren living.

Since her marriage Mrs. McLain had lived in McKendree Chapel neighborhood until the past twenty years she has lived in Meredosia.

Altho she had been in failing health the past two years, she has been able to sit in her chair and pass the time either in reading or knitting lace of which she was very fond. During all her illness she never uttered a word of complaint but was ever ready to greet each one with a smile and a cheery word. She was a member of the Methodist church and her abiding faith in her Savior was her constant support; and thru the years of training her large family, she never failed or faltered. She loved to read the Bible and her church paper of which she has been a subscriber for more than a quarter of a century. A noble Christian woman and ideal mother has gone to her reward.

A short funeral service will be held at the home at the noon hour Wednesday and the remains will be taken to McKendree Chapel where the funeral services will be held at 1:30 o'clock. Interment will take place in Newman cemetery by the side of her departed husband.

QUINTAL-PARISH CASE HANGS JURY AT BLUFFS

Case of People Against School Principal Attracts Audience of Two Hundred Saturday Afternoon.

The case of the people vs. Prof. Parrish, charged with assault on the person of Dewey Quintal, pupil in the Naples high school, was brought to trial Saturday afternoon at two o'clock in Red Men's Hall, at Bluffs, Justice J. E. Korty presiding. The jury came to no decision, standing 4 to 2 in favor of Quintal at midnight Saturday.

The jury was dismissed and it is probable that the case will be appealed to the county court at Winchester. On the jury Saturday were J. B. Thompson, George Rockwood, Alfred Schroeder, Ed. Albers, George Scott and Late Six. An audience of two hundred gathered in the hall and interest in the case was keen.

Trouble between young Quintal and the principal took place Tuesday, Jan. 4. The boy was said to have copied answers for his algebra problems. In the course of a scuffle between Quintal and Prof. Parrish, the former was struck on the head with a blackboard compass and a scalp wound inflicted.

Our instructions to the famous editor of the Boston Cooking School Magazine were: "Get up a book of recipes of the things people like best. Find the best way to make and bake each one. Then write it out so plainly that even an inexperienced housewife can't have a failure."

"The Cook's Book" was the result. Some of the 90 recipes were originated, many of them were improved upon, and all were personally tested by this best known authority on cooking in America, and she tells so clearly how she made everything that one cannot go astray.

While some of the cakes and pastry are elaborate enough for any occasion, the recipes are all thoroughly practical and call for no expensive and unusual ingredients. In addition to telling how to make them, the book is beautifully illustrated in colors showing how to arrange and serve the dishes appetizingly.

More than half a million of "The Cook's Book" are now in use in American households. Yet the demand is constantly increasing. Many send for two or three at a time to give to friends or young housekeepers. Don't depend on borrowing one from a neighbor—have one of your own.

How to Get "The Cook's Book"

In every 25c can of K.C. Baking Powder is packed a colored certificate. Send us one of these certificates (paste it on a postal card if you like) with your name and address plainly written, and "The Cook's Book" will be mailed free of charge. Only one book for each certificate.

EXPLAINS HOW U. S. RANKS THIRD AMONG WORLD'S NAVAL POWERS
WASHINGTON, Jan. 17.—How the United States ranked third among the world's naval powers at the beginning of the European war, when data on foreign navies ceased to be available, is explained in a letter from Secretary Daniels made public tonight by Representative Madden of Illinois.

Mr. Madden had called attention to a statement by Representative Kitchin, in the house majority leader, who in opposing the new naval program, declared that the records showed the American fleet was superior to that of any nation except Great Britain. In reply the secretary said that the strength of a modern navy could be estimated only on the number of dreadnaughts, and that according to the department's information Great Britain had on Aug. 14, 1914, 46 dreadnaughts, Germany 28, the United States 14, France 13 and Japan 8. The United States now has 19 dreadnaughts in commission, building, or authorized, he added, but nothing is known as to what other powers have built or ordered since the war began.

The Self-Feeder For Swine Feeding

By John M. Evvard

How about the self-feeder? Is it practical in feeding hogs? Will the hogs balance their own ration? What feeds shall we allow in them? How do the "self-fed" gains compare to the "hand-fed" ones? What about the feed required for a hundred pounds of gain? How much trough room is necessary? Are the self-feeders difficult to make? Tell as much about the self-feeder as will give us a clear idea of its practicability in general. These are the questions which come to us daily. In a brief way we shall answer.

In the quick fattening of well grown shoats the self-feeder method is of much merit. Just this summer (1914) we finished seventeen 225-pound shoats on bluegrass, feeding them for 68 days in self-feeders, there being allowed separately dry shelled corn, of which they ate per head daily 7.33 pounds, meat meal (carrying 60 per cent protein), .18 pounds, whole oats .07, wheat middlings .04, linseed oil meal (Old process) .01, charcoal .003 pounds. We could hardly have handled them to better advantage. They gained 1.75 pounds daily, which is quite good, and required for a 100 gain these feeds: corn 422 pounds, meat meal 19.3 pounds, oats 4.2 pounds, middlings 2.2 pounds, oil meal .7 pounds, charcoal .16 pounds and salt .16, or of total concentrates 439.6 pounds. Charging the corn at 50c, meat meal at \$2.50, oats 38c, middlings \$1.45, charcoal \$3.00, salt at \$1.00 and blue grass pasture at \$6.00 an acre, the cost of the 100 gain is \$4.22. Charging corn at 60c and oats at 45c, other prices the same, we have \$3.98. With \$6.00 hogs the return for a bushel of corn, all profits placed on corn was 72.7 cents.

A comparison of pigs, hand vs self-fed, taken from weaning to 250 pounds in weight on alfalfa pasture and finished in dry lot when alfalfa season was over, is particularly instructive. The table of results follows.

Hand vs. Self-Fed Pigs on Alfalfa. Pigs—Weaning to Market—Full Fed

Feed	IS	IN	SN	SS
	Hand-fed	Ear corn plus 7 1-2c meat meal	Hand-fed; meat meal in self-feeder	Shelled corn
No. days fed	229.00	206.00	206.00	180.00
Av. daily gain	.95	1.06	1.07	1.22
Feed eaten daily, Corn grain	3.91	3.82	3.62	4.10
Meat meal	.08*	.28	.39	.33
Total feed for 100 gain	419.60	385.40	372.60	364.00
Cost of 100 gain, corn at 50c	3.97	3.96	4.00	3.83
Return for bu. of corn with \$6.00 hogs, cents	75.40	79.60	81.10	83.90

*Some meat meal fed in dry lot following forage.

him sugar he disregards the price. But it is surprising how well the hog likes corn. In the corn belt it is the one great feed for swine, but just now its relative high price gives it a narrow margin compared to wheat, rye, barley and oats.

8. Don't you know that "hogging-down" corn is practiced by your fellow Iowa farmers because "it pays"—and don't you know that it is the "self-feeder method" of harvesting corn?

9. Don't expect pigs on dry, hard blue grass to do well when self-fed grass or supply rape, alfalfa, and so on.

10. Don't self-feed unless you keep water before the hogs always.

11. Don't self-feed tankage or meat meal if you limit the corn ration; when the pig gets hungry it's eat tankage or nothing, and he eats the tankage.

12. Don't expect the self-feeder to be a panacea for all feeding troubles.

Remember that the self-feeder is still in an experimental stage and that the principles and laws which govern its use are not yet fully worked out.

A Stockman's Stock.

Says the president of the Wisconsin Live Stock Breeders' Association: "A real stockman's voice, manners and actions are kind and gentle. His love of animals keeps him with his stock, often when he knows that there is nothing lacking to make them comfortable. His animals feel his gentleness and kindness and respond to it. He spreads it in his home and among his neighbors and finds it responded to there."

True words. But one of them needs emphasis: Comfortable. It and efficiency go together, and profit follows them. Many think cold is the cause of most discomfort of farm animals. It is not, unless the animal is so confined that it cannot move about. Some one has said "man and an unblanketed horse tied to a post are the only animals that suffer from cold." The thin cow stunted in a stable full of cracks is another. But a combination of wet and cold is what does the damage. No animal can stand cold, wet feet very long and prosper. It chills the body thru and thru. Most stockmen do not worry about cold so long as their animals have dry footing, shelter from biting winds and room to exercise. That beats hot stabling in state air, even for dairy cows. Some men are "real stockmen"—some just keep stock.—The Farmers Review, Chicago.

State Dairymen.

Several local dairymen will probably attend the state convention of dairymen to be held at Carbondale, January 25, 26 and 27th. Creamery men of the state have also been called to meet at the same time and a number of representatives of the bankers' association will also be present, as the bankers have manifested a particular interest in dairy operations. Prizes will be offered for cattle and for dairy products.

Typhoid Fever Reduced in Rural Communities.

(U. S. Public Health Service.)

Reduction in typhoid fever and improvement in sanitary conditions have followed the intensive investigations of rural communities carried on by the United States Public Health Service in co-operation with local and state health officers, according to the annual report of the Surgeon General of that service. During the past fiscal year 16,369 rural homes in eight different states were visited and many of them revisited. In each of these homes information was obtained as to the prevalence of disease and insanitary conditions and a complete sanitary survey of the premises conducted. This was followed by reinspections to determine if remedial measures had been instituted. In but a relatively small percentage of the cases did the persons concerned, after having their attention drawn to the danger of a particular unhygienic condition, fail to inaugurate corrective measures. Stimulus was given to the work by means of public lectures, the formation of active sanitary organizations, and the enlisting of all public spirited citizens in the campaigns for reform. Public buildings were also inspected and local authorities given expert advice in solving such sanitary problems as the disposal of excreta, the prevention of soil pollution, and the maintenance of pure water supplies.

The surveys made during the year 1914 had shown that in rural communities less than one per cent of the homes had sanitary toilets and that more than fifty per cent of the people were using water from polluted sources. The condition, according to the Public Health Service, made the rural sanitation question loom large among the matters vitally affecting the welfare of the nation. Following these studies and as a result of the interest aroused, the typhoid fever rate, an excellent index of the sanitary status of a community, has in some places frequently been cut to one quarter of its previous figure. In Berkeley county, West Virginia, the cases of typhoid fever were reduced from 249 to 40 in one year. In Orange county, North Carolina, the rural sanitation campaign resulted in a reduction of the cases from 59 to 17.

The tangible results of operations in rural sanitation indicate that marked advancement in maintaining hygienic and satisfactory surroundings in country districts is possible by the application of the common principles of preventive medicine. Insanitary conditions exist largely because they are not known to be such. Actual demonstrations of their harmfulness, together with definite recommendations for their correction, remain one of the most gratifying and successful methods for instituting reforms and has been, in the experience of the Public

Health Service, invariably accompanied by definite and measurable results.

CATARRH A BLOOD DISEASE

Drive It From Your System.

Because Catarrh affects the nose and throat, causing sores in the nostrils, stoppage of air-passages and gathering in the throat, it has been common practice to treat Catarrh with salves, washes and sprays applied to these parts. This mode of treatment cannot give permanent relief, and is liable to aggravate the trouble. Catarrh cannot be trifled with. If allowed to run on it will disengage the bronchial tubes, settle on the lungs and affect the stomach—indeed it is a very serious disease. Don't treat it locally. The one treatment that has proven effective in the treatment of Catarrh is S. S. S., the greatest blood purifier and blood tonic known. It relieves the cause of Catarrh, by renewing the blood, renewing its vigor, giving new life to the red blood corpuscles and stimulating the flow so that it has the vitality to throw off the poison and germs from the system. It is literally a blood bath. You quickly feel results. Headaches disappear, the gathering in the throat stops, the nostrils heal. S. S. S. is a natural blood tonic and has proven effective in the treatment of all blood affections, Eczema, tetter, rash, Scrofula. Get S. S. S. at your druggist's. Court Seeks to Find Whether He Had Received Any Part of the \$20,000 Taken from the Late Dr. W. T. Kirby.

Chicago, Jan. 17.—Christian P. (Barney) Bertsche, former convict and confessed go-between of clauvian swindlers seeking police protection, was closely questioned today by Federal Judge Landis to find out whether he had received any part of \$20,000 taken from the late Dr. William T. Kirby by race-track swindlers.

Bertsche parried many of the questions asked him concerning \$2,000, which he had publicly stated he had received from John Stroeder to be paid the police for protection from arrest.

Because of the swindle, Kirby's putate bank failed, and the estate went into bankruptcy. Judge Landis is seeking to find out whether the \$2,000 belongs to the state.

The court directed that a check (or \$100) given Bertsche for appearing in a local theater be kept pending the outcome of the inquiry, and also directed a local newspaper to retain what money was due to Bertsche for articles written by him.

Judge Landis will conclude his inquiry into the Bertsche case tomorrow.

MINERS TO RETURN TO WORK.
Clifton, Ariz., Jan. 17.—Striking copper miners mass meeting yesterday and today adopted resolutions to return to work for a period of fifteen days at a scale of wages offered by the mine managers based upon copper selling at twenty-four cents a pound. A proviso is included in the resolution that the mine managers shall meet a committee of employees for adjustment of grievances at the end of the fifteen day period.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Try This! Your Hair Gets Wavy, Glossy and Abundant at Once.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have also, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes, but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.

Another Wonderful Recovery from Kidney Trouble

For nearly nine years I was a great sufferer from what my doctor said was kidney trouble and my blood was out of order; enduring all that time excruciating pain in my back and across my bowels. I was drawn down so that I could only walk with my hands on my knees. My doctor said he could do nothing for me. I tried many kinds of medicine but all to no avail. A friend told me about Dr. Kilmer's Swamp-Root, and as I had tried everything else that I heard of, I bought a bottle of Swamp-Root and it did wonders for me. I prize it higher than any other medicine and I shall recommend it to my friends. I wish to add right here that after using Swamp-Root for two months I began to straighten up and am now sound and well, and feel like I might live a long time yet to tell what your medicine has done for me.

Yours very truly,

LAND O'NOD STORES

The Marriage Flight.
Just as the Queen of the Ants finished showing her guests thru the dairy where herds of Aphids or Ant Cows were feeding on the roots of the rosebushes that grew above, changing the sap into milk, a number of workers came rushing up, all out of breath from running so fast.

"Oh, Your Majesty, the marriage flight has begun," cried one of the heralds, making a low bow.

"The marriage flight? What is that?" demanded Billy Be By Bo Bum, catching the excitement of the new arrivals.

"It is the annual faring forth of the young Princesses and their mates to found new cities of their own," replied the Queen. "Ever since the day they were born, the baby queens and males have led a life of ease. From morning until night they have done nothing but play—and eat, and oh how they do eat! They have not even had to forage for their food as the workers have tended and fed them. But now the time has arrived when they must shift for themselves. I am glad their wedding day has arrived, for there are so many of them that the city was being dreadfully overcrowded this last month or two."

All the while the Queen was talking, they had been hurrying along the narrow passage that led from the city proper to the dairy. In a few minutes they turned into the main street and here all was bustle and confusion. Hundreds and hundreds of young Princesses and males, each with a pair of wings folded neatly on their backs, wings they had never yet had a chance to use, ran back and forth in aimless confusion, while on every side the excited workers hung about their royal brothers and sisters, giving this one a drink of milk before it started on its journey, and urging others to hurry up to the gate of the city.

When the Queen saw the preparations made for the departure of her royal children, she became as excited as the most giddy young princess and would have joined the busy throng if it had not been for her bodyguard. These constant attendants formed a circle around her and started hustling her down a side passage that led to her own apartments at the very bottom of the city.

"Goodbye Billy Be By Bo Bum," she called. "You see my bodyguard is afraid I will run away with my children, so they are going to lock me up until the marriage flight is over. Don't forget to come and see me again when all this excitement blows over," and she disappeared down the passage for all the world like a prisoner being led away to jail.

Montreal, P. Q.—Miss Helen Reid, who has won an international reputation as a social worker, has been honored by King George, who has conferred upon her the Order of St. John of Jerusalem. She is a graduate of McGill university and has been extremely successful in social work. Her fame in the Dominion has been enhanced by the admirable manner in which she has controlled the local branch of the Canadian Patriotic fund.

Philadelphia.—One of the highest salaried women in the mercantile world is Miss Nancy Vincent McClelland, who receives ten thousand a year for writing the advertising of the Wanamaker stores. She is one of the first women to come to the front in the advertising world and she owes her success to her fertile brain. When ideas are needed she can supply them. She originated the children's art contests and the Personal Service bureau in the Wanamaker stores. Miss McClelland was 40 years old when she took up this new work and now at 55 she is at the height of her career.

WOMEN IN THE NEWS.

CHICAGO.—Chicago society and factory conditions for girl workers will fill the court-room today when the charges they have brought against a prominent silk manufacturer come up for hearing. The club-women charge violation of the child labor law and failure to provide seats for girl workers. There are nearly a thousand girls working in the silk factory, many of whom are under 16, and it charged that the highest weekly wage paid is five dollars.

Philadelphia.—Instead of giving their college a Greek theatre or Spanish garden, sixty women members of the first four classes graduating from Bryn Mawr are presenting the state of Pennsylvania with a study of fire prevention in commemoration of the twenty-fifth anniversary of their graduation. The field of study will be the industrial establishments of the state, in which women and girls are employed. Miss Fanny Travis Cochran will conduct the work, assisted by Miss Florence Lucas Sanville. Both are well known for their research work. This is the only movement of its kind on record. It is based on broad human sympathy for working women.

Mrs. George Haven Putna of New York is chairman of the executive committee in charge of the work.

San Francisco.—The threats of General Carranza that he will break up the big estates held by aliens in Mexico affect the huge holdings of Mrs. Phoebe Hearst of this city. Her holdings are said to be greater than those of any other American, comprising some three millions of acres. Mrs. Hearst is very wealthy and a great deal of her fortune is invested in Mexico. She has given large fortunes in philanthropy in this city, South Dakota, Washington and Mexico, and if the new government in Mexico appropriates her estate there she may have the sympathy of many Americans.

McPherson, Kan. — McPherson women have adopted a novel plan to build and beautify more parks. "Build a park for a penny" is the slogan of the club women for 1916, and a hundred of them will save a penny a week for the park. Some clubs have made it five cents a week. When the year is ended, five hundred dollars will be raised in this manner. It is through the various plans of the women that the city has been made more beautiful during the past few years.

Washington, D. C.—The women's department, a standing committee of the National Civic Federation, will hold its annual meeting today and tomorrow in Washington in conjunction with the federation's Miss Maude Wetmore of Rhode Island will preside and many prominent women who are interested in civic uplifts are here for the meetings. The women's department takes special interest in child labor and working women and are spreading a program for vacations for working girls, better working conditions and better wages. CONTRIBUTIONS FOR GOLF AT PARK

More Than \$500 Has Been Secured For Links.

Enthusiastic Meeting Held Last Night—Blue Print Presented Showing Lay of Land—Country Club Election.

A dual meeting was held at the upper room of the Peacock Inn last evening. First was the annual meeting of the country club and the election of officers when the following were chosen:

President—Frank Byrns.
Vice president—J. W. Hubbell.
Secretary-treasurer—F. E. Farrell.

The club voted fifty dollars to the golf links fund.

A well attended and enthusiastic meeting was held to discuss matters pertaining to golf links at Nichols park. F. E. Farrell presided but the meeting was largely informal. A blue print prepared by the Caldwell Engineering company was presented and showed in very good shape the proposed improvements to be made and the manner of making them.

S. W. Nichols, president of the park board, said it was the sentiment of the board to be just as liberal as possible to the golf enterprise but the funds at the command of the board were of necessity limited and would have to be used with economy. The board had voted five hundred dollars to be expended as the golf players thru their committee decided and it was the sentiment of the meeting that the players would use the money raised by them to prepare ground, build the bridge and do the grading while the funds from the board would be used for the upkeep of the links and grounds.

F. E. Farrell, W. E. Hubbell and Mrs. J. H. Danskin were appointed an executive committee from the golfers to co-operate with the park board in preparing the links.

A subscription paper had been circulated and while nothing like a complete canvass had been made more than five hundred dollars had been secured and it was the hope of some of the golfers that \$1000 would be secured. The following were contributors:

Earl Epler, \$2.00.
Walton Boxell and B. Jackson, \$2.50 each.

The following subscribed \$5.00 each: Frank Byrns, Chas. B. Graff, Rev. M. L. Poulus, C. R. Merrill, Louis Frank, Hood & Larson, Edward Tomlinson, Mrs. J. H. Danskin, A. Wehl, W. S. Camp, C. H. Widmayer, Jeff Cleary, Clifford Alves, Myers Brothers, Mrs. A. Wehl, J. Edgar Martin, E. J. Howells, E. G. Saye, Dr. Dinsmore, John G. Reynolds.

Paul Samuels, \$7.50.

The following gave \$10 each: T. J. Brennan, T. C. McKivick, Wilfred Ayers, A. T. Capps, Marcy Osborne, Dr. B. S. Gailley, F. J. Andrews, Ralph I. Dunlap, Warfield Brown, J. G. Ames, Dr. George Blair, Dr. F. R. Gregory, F. J. Waddell, Dr. J. W. Hargrove, Chester Hemphill, E. E. Crabtree, Paul Alexander, Perry Sargent, Rev. R. O. Post, D. D.; M. F. Dunlap, H. J. Rodgers.

Edward Brown, \$15.

The following gave \$25 each: J. W. Hubbell, A. M. Masters, Dr. F. A. Norris, F. E. Farrell.

W. B. Miser, \$50.
Country Club, \$50.

The work of canvassing is to continue.

TWO CHILDREN DROWN.
Tacoma, Wn., Jan. 15.—Two children, Walter and Florence Bower, were drowned and a number of other passengers had a narrow escape today when the gasoline launch Victor II, capsized in Puget Sound during a gale. The passengers clung to the framework of the launch and later succeeded in getting into a life boat which was picked up by a passing steamer.

DIES OF STARVATION.
St. Louis, Jan. 15.—Joseph P. Ropp, 78 years old, died Thursday of starvation and cold. Today a key to a safe deposit box was found in his room and when the box was opened a certificate of deposit for \$18,000 was found and \$100 in loose cash. Ropp was found unconscious in his room by a policeman last Thursday—the coldest day of the winter.

DARCY DEFEATS ANDREWS
Milwaukee, Wis., Jan. 15.—Les Darcy, Australia, defeated George (Knockout) Brown, of the United States in a twenty round boxing contest at Sydney, Australia, last night, according to a cablegram received today by Tom Andrews, boxing promoter of Milwaukee.

Darcy was given the decision on points.

FOT BRONCHITIS, PAINFUL COUGH, WHOOPING COUGH AND COLDS

Cheapest Remedy Made at Home—128 Teaspoonful for 50 Cents.

When in need of a remedy for the treatment of Bronchial Affections, such as Bronchitis, Whooping Cough, Croup, Stomach Coughs, Colds or Hoarseness, don't simply ask the druggist for a "Cough Medicine" but get the best. Tell him to give you Schiffmann's New Concentrated Expectant. Instead of being induced into buying something else purely on the strength of some testimonials or the exaggerated claims of the manufacturer. The same "Money Back" guarantee goes with every bottle of this remedy sold by M. E. Gilbert as does with Dr. Schiffmann's famous Asthmador and your money will be refunded, if it does not give perfect satisfaction; in fact even more, if it is not found the best remedy ever used for these affections. In buying this new remedy, besides securing the guarantee this druggist gives, it will likewise be found the most economical to use, for the reason that one bottle (50 cents' worth) makes a full pint (128 teaspoonful) of the most excellent cough medicine, after being mixed at home with one pint of granulated sugar and one-half pint of water. One bottle will probably, therefore, be sufficient for a whole family's supply the entire winter, while the same quantity of the old, ordinary, ready-made kinds of medicine would cost between \$2 and \$3. It is prepared from strictly harmless plants, contains absolutely no chloroform, opium, morphine or any other narcotic or injurious drugs as do most cough remedies, and it can therefore be given to children with perfect safety. It is pleasant to take and children are fond of it. Absolutely no risk whatever is run in buying this remedy under the above positive guarantee. R. J. Schiffmann, Prop., St. Paul, Minn.—Adv.

CORRESPONDENCE OF THE ASSOCIATED PRESS

London, December—A bill to amend the munitions act has been drafted to meet complaints that provisions of the original act are unjust. Serious labor troubles are brought about, the sense of grievance among munition workers in Scotland, particularly, having become almost as bitter as it can be without a revolt.

Under the original act, it is necessary for men who leave the government-controlled factories to get certificates from their employers before they can obtain work elsewhere. Many employers have refused to grant such certificates to men they have dismissed. A proposed amendment makes it obligatory for the employer to furnish certificates even to discharged men and it also forbids him to endorse on the paper the offences that caused the discharge. It is expected this change will do much to conciliate the complaining workers.

A second amendment extends the application of the act. It states that munition work, for the purposes of the act, shall include not only all direct work on munitions, but all subsidiary work such as building and repair work on munitions factories, the supply of light and power for the manufacture of munitions, and the manufacture of machinery and raw material for munitions. Thus practically all war work for the government and all the working people employed in it come under government control, which means the employees lose the right to strike and even the right to leave a job voluntarily.

The Labor party has asked for still another change. All offences against the act are tried before a tribunal, at present composed of a chairman appointed by the Minister of Munitions and two other members representing employers and employees respectively. The decision being left to the chairman. The Labor leaders ask that employers and workers be given two representatives each, and the decision go to the majority of the five votes, the accused reserving the right to appeal to the courts. They also ask that when a workman is tried for neglect of duty and acquitted that he be paid for the time spent in court.

Standardization of wages and working conditions is also asked as the proper corollary of the measure depriving the workman of the right to strike or leave his job. This will be considered when the bill is brought up in Parliament.

There is also discussion of the proposition of giving women representation on the tribunal on account of the large number of women workers employed in munitions factories.

Mr. Lyd George, the minister of munitions, has recently circulated a letter to the effect that the best possible use is not being made of either machinery or labor in government-controlled establishments. He finds that there is too large a proportion of skilled men employed in proportion to the semi-skilled or unskilled, while in some districts night shifts are not properly organized.

Employers are requested to furnish detailed information as to the assignment of their skilled labor and to take steps to replace skilled men with unskilled men or women wherever possible so as to use the skilled workers as foremen for increased work.

In a subsequent letter, Lloyd George says he intends to form a new set of rules governing the employment and wages of women. The question of pay of women and unskilled men has been difficult to solve on account of the jealous regard of the labor union for their old rights and privileges, so the government has to guard against the war-workers appearing in the light of strike breakers in union eyes and against jeopardizing the future positions of union men after the war.

WORLD'S MARKET NEWS

SURPRISE OVER SMALLNESS OF INCREASE IN SUPPLY LIFTS WHEAT

Despite a setback which took place soon after the start, prices close strong, 1 to 1½ cents net higher.

Chicago, Jan. 17.—Surprise over the smallness of an increase in the United States visible supply total had a good deal to do today with giving the bulls final control of the wheat market, and so to odd prospects of removal of the railroad embargo on shipments to Baltimore. Despite a setback which took place soon after the start, prices closed strong, 1 to 1½ cents net higher; with May at 1.28½ and July at 1.22. All the other chief staples too, scored gains—corn ½c, oats ¾c to 1½c, and provisions 15 to 52.

Wheat traders had been expecting a notable enlargement of the visible supply, and many were compelled to make a quick change of position when late in the session figures were posted showing an increase of only 722,000 bushels whereas the increase last week was 2,500,000 bushels. A falling off of 606,000 bushels in the amount of wheat on hand at Chicago had not generally been foreseen.

Heavy selling by leading firms was chiefly responsible for depression that set in after the opening.

Corn also at first depressed was afterward given a decided upturn.

Oats broadened from the start. The seaboard had commission houses were heavy buyers, encouraged because of better railroad and shipping conditions.

Higher prices on hogs helped to lift provisions.

A Western woman doctor declares that women are physically fit for service at the battlefield. Probably some exceptional women may be, but are not the majority prone to ailments which make even household cares a burden? True Secret of Keeping Youthful Looking

(The Beauty Secret.) "The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these regularities, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, slow, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face. "But to get liver and bowels working as they ought, without producing evil after-effects is a prescription of unexcelled rarity, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though, of course, it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'Santonal'—that's the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Santonal tablets, which may be procured from any druggist—don't worry will do—will prove a revelation to any constipated, liver-troubled person."

The Constipation Curse

Constipation—clogged bowels cause pain and sickness; 95 per cent of our ills, say the authorities, Santonal Laxatives bring quick relief. All vegetables—contain no calomel. DR. J. L. HARVEY DIES SUDDENLY

PROMINENT PHYSICIAN OF PIKE COUNTY PASSES AWAY.

Death Ensued From Stroke of Paralysis Monday Morning While Physician Was at Home of Patient.—Deceased Was President of Business Men's Association and Vice President of Griggsville Bank—Funeral Wednesday.

Dr. J. L. Harvey of Griggsville, a prominent physician of Pike county, died suddenly Monday morning at 10:30 o'clock from the effects of a stroke of paralysis, at the residence of L. D. Scott, where he had gone to see a patient, who had scarlet fever. Some two years ago Dr. Harvey suffered a severe stroke of paralysis and he had another slight stroke last Friday. He seemed to be in his usual health Monday. He had no sooner entered the Scott home, and sat down when death ensued, which came as a great shock to the community. Dr. Harvey was one of the influential and enterprising citizens of Griggsville, and a man of very fine character. He had often visited in Jacksonville, where he had many friends. It was only last week that he was here on professional business.

He was born in Warner, New Hampshire, in 1852, and was graduated from the St. Louis University in 1875. He started his practice of medicine in 1877 and since that time has been residing in Griggsville.

He was vice president of the Griggsville National bank, President of the Griggsville Business Men's association, president of the Public Library board and was interested in many things for the good of the community. He was a member of the Masonic lodge and of the Congregational church.

For years he was an active member of the Morgan County Medical society, a member of the Illinois State Medical society and was the organizer of the Pike County Medical society.

He was twice married. His first wife was Miss Isabel Kenney and he was married the second time to Miss Mary Petry. He is survived by his widow and two children, Ira and Mrs. Florence Trift, of Oklahoma City, Okla.

Funeral services will be conducted Wednesday afternoon at 2 o'clock from the family residence.

SOME HOME MADE COMEDY.

The Cracker Jack Four opened a three days engagement at the Grand Monday afternoon. The quartet has some good songs which are sung in a skillful manner and also some good comedy. One member of the quartet is a fat man and of course he is the butt of most of the fun. Monday afternoon some comedy was pulled that was not down on the bill. The fat member of the quartet after being hit on the arm with a cane by one of his fellow workers backed over to the side of the stage and close to the drop. It evidently was the cue for a stage hand to reach out and slap him on the head with a board. In some manner the stage hand misjudged his distance, missed his mark and fell on his face out on the stage. He got considerable applause and laughter before he was able to get out of sight. It would be a good idea for the stunt to be pulled at every performance.

THE BIBLE AS A WORK OF LITERATURE

Sunday evening Rev. R. O. Post, delivered another of the series of sermons on the bible with which he has been favoring the congregational church for some time back. Such themes as the Deathless book, the book of liberty, the book of commerce, the radical book, the book of civilization, have been discussed and Sunday night the book was described as a model of fine literature. The discourse was an excellent one and gave great satisfaction to the audience.

DAINTY CHEESE DISHES.

At the January meeting of the Domestic Science Round Table, held Saturday afternoon in the home economics rooms at the high school, Miss Ella Newman, gave demonstration of several toothsome dishes which may be made with cheese. Six good recipes are given herewith:

Cheese Croquettes.
1 cup rice,
2 1-2 cup water,
1 1-2 teaspoonful salt,
1-8 teaspoonful pepper,
1 egg.

Add the water to the rice, and cook until the rice is tender, then add the cheese, seasoning and egg. Let the mixture cool slightly—shape dip in crumbs, beaten egg and crumbs and brown in deep fat. Drain on heavy white paper.

Cheese Balls.
1-2 lb. grated cheese
1 tbsp. butter
1 egg (slightly beaten)
2 tbsp. bread crumbs
1-2 tsp. salt
Dash cayenne or paprika.

Add the cheese and seasoning to the egg and crumbs; shape into balls about the size of an English walnut. Roll in crumbs, in egg and again in crumbs. Fry in deep fat and serve while hot as an addition to a meat course or salad course. If the cheese ball bursts open in frying, the fat is too hot.

Cheese Rings.
1-4 cup butter
1-2 cup milk
1-2 cup grated cheese
3-4 cup flour
1-4 tsp. salt
Dash of paprika
2 eggs.

Heat milk and butter to the boiling point, add the flour and seasoning. Cook until the mixture leaves the sides of the pan. Remove from fire and stir in 1-2 cup grated cheese and two slightly beaten eggs (egg at a time). Roll in rings on oil paper, using a pasty bag and small tube. Brush with slightly beaten egg white and fry in deep fat 3 or 4 minutes. Drain on brown paper. Serve hot or cold with a green salad.

Cheese Gingerbread.
1 cup molasses,
3-4 cup grated cheese
1 tsp. soda
1-3 cup water
2 cups flour
1 1-2 tsp. ginger
1-2 tsp. cinnamon
1-2 tsp. salt.

Heat molasses and cheese in a double boiler until cheese is melted. Mix and sift dry ingredients. Add the cheese mixture to dry ingredients alternately with the water.

Mozzarella Salad.
Drain slices of canned pineapple, cut in halves crosswise and arrange for individual service on lettuce leaves.

Moisten 2 cups grated cheese with a little olive oil and force thru a potato ricer over the pineapple. Garnish with strips of pimento and serve with California French dressing.

California French Dressing.
4 tbsp. olive oil
2 tbsp. grape fruit juice
1-2 tsp. powdered sugar
1-2 tsp. salt
1-4 tsp. paprika
Mix ingredients in order given. Put in a glass jar, chill thoroughly and shake well before using.

LIVESTOCK MEN CONFER ON FOOT AND MOUTH DISEASE

Charles Adkins Reports Statement's Made by Assistant Secretary of Agriculture—Livestock Association Begins Meeting Today.

Springfield, Ill., Jan. 17.—Live stock breeders of Illinois and adjoining states conferred here tonight on the results of the campaign against the foot and mouth disease. The meeting was preliminary to the opening tomorrow of the annual convention of the Illinois Live Stock Breeders Association and its subsidiary organizations.

The conference was called for tonight, according to the official announcement, because the association's officers felt that it "should be held prior to the general meeting so that any one wishing to discuss the foot and mouth disease or state legislation should have ample opportunity to do so, thereby not taking up the time for this subject in the meetings and crowding out important papers."

Charles Adkins of Bement, president of the association, opened tonight's proceedings with a report on the conference on foot and mouth disease called by Carl Vrooman, assistant secretary of agriculture. The methods of controlling the disease in the nation and the campaign for its eradication in Illinois were described by Dr. J. A. Kiernan of the federal department of agriculture and Dr. O. E. Dyson, state veterinarian. The subject was then thrown open for a general discussion in which farmers, stock dealers and legislators participated.

The convention proper will last thru Wednesday evening when the annual banquet of the organization is to be held. There will be a general session tomorrow morning to hear the reports of officers and then the Sheep Breeders and Cattle Breeders associations will have sessions. Wednesday will be given up to the horse and swine interests.

GIANTS PURCHASE KAUFF AND TWO OTHER FEDERALS

NEW YORK, Jan. 17.—President Harry N. Hempstead of the New York Nationals, announced that he had purchased Benny Kauff, star outfielder of the Federal League, and two other Federals, W. A. Rariden, catcher of Newark, and Fred Anderson, pitcher, of Buffalo.

The deal was made thru Harry F. Sinclair, who has held an option on the services of the three players. The money consideration was not divulged. Among the rumors concerning the purchase was one that Kauff's transfer and services will cost the Giants \$30,000.

Baseball men believe Sinclair's action virtually ends rumors that he was to purchase the club.

INTIMATE REORGANIZATION OF THE NATIONAL COMMISSION

CHICAGO, Jan. 17.—Re-organization of the National commission, the supreme court of baseball, and the retirement of Garry Herrmann as its chairman was intimated today in an article published in The Chicago Daily News. The paper said:

"Dissolution of the National commission and re-organization under a new regime seems to be the plan of the American League. This includes the passage of Garry Herrmann. President Johnson today admitted he favored a change in the method of conducting baseball business."

"The new government body in baseball should have at its head a man not identified with either major league, Johnson contends."

Briggs and Miss Eunice Harvey, which took place Monday afternoon at 2 o'clock at the rectory of the Church of Our Savior. The ceremony was performed by the Very Rev. J. W. Crowe and the couple was accompanied by Miss Ruth M. Deters and W. J. Eads.

The bride is the only daughter of Mr. and Mrs. James Harvey of 313 East College street and was born and reared in Jacksonville. She attended the parochial schools in this city and for a year was a student at St. Mary's academy at Hannibal, Mo., where she studied music and was graduated from the eighth grade. After returning from Hannibal she was for two years a student at Kountze college and took a business course at the Jacksonville business college. Until recently the bride has held a position as operator at the local office of the Illinois Telephone company. She is a young lady who is greatly admired by a wide circle of friends.

The groom is a son of John C. Briggs of Beardstown and was born and reared in that city. He received his education in the public and high schools of Beardstown and also learned the printer's trade there. For more than a year he has held a position as linotype operator in The Journal's composing room and recently was elected treasurer of the local typographical union. Since coming to Jacksonville Mr. Briggs has made many friends, who will unite with those of his bride in extending their best wishes.

After the ceremony the wedding party went to the home of the bride's parents where supper was served.

Mr. and Mrs. Briggs originally intended going to Beardstown Monday afternoon at 4:30 o'clock and a large number of employees of the Illinois Telephone company went to the station, intending to give the bride and groom a shower of rice. The young couple, however, altered their plans without intimating the fact to their relatives until the last minute. Not finding them at the station the young ladies went to the residence of the bride and for some time rice filled the air. All were invited in and refreshments were served.

Mr. and Mrs. Briggs will go to Beardstown for a visit with relatives of the groom and from there will go to Keokuk, Ia., to visit a brother of the bride, Leslie W. Harvey. After their return they will for a time reside with the parents of the bride.

Four years ago Mr. Jewsbury celebrated his eightieth birthday at his home. On that occasion about fifty friends were invited in and a dinner was enjoyed. An account of the celebration appeared in the Journal at that time.

Mr. Jewsbury was born in Measham, Derbyshire, England, Mar. 18, 1832. He was baptised in the Protestant church of England, Oct. 15, 1832 and was a member of that church at the time of death. EDWARD KILIAN AND NINA MAHONEY MARRIED MONDAY IN CARROLLTON

Ceremony Said by Rev. Father Mahoney in Presence of Few Friends and Relatives — Will Reside in Kalamazoo, Mich.—Wedding Was Surprise.

Friends in this city will be surprised to learn of the marriage of Miss Nina Mahoney and Mr. Edward Kilian, which took place Monday afternoon at the parochial residence of Rev. Father Mahoney of Carrollton. The ring ceremony was used. The bride and groom were attended by Miss Mabel Berry, a cousin of the bride, and Mr. Myrtle Large.

The bride was attired in blue crepe de chine, with hat and shoes to match. But few knew of plans for the approaching marriage and the party left the city quietly and by different trains.

The bride is the daughter of Mr. and Mrs. F. J. Mahoney, formerly of Jacksonville, but now residing at Kalamazoo, Mich. She has always made Jacksonville her home, where she has formed a wide circle of friends who will wish her much joy and happiness and will regret to learn that she does not expect to make this city her home.

Mr. Kilian is the son of the late Joseph Kilian and is a young man of sterling character, highly esteemed by all who know him. Until recently he has been engaged in the cigar business in Jacksonville.

After the ceremony the party returned to this city where a wedding supper was served at the home of the bride's uncle and aunt, Mr. and Mrs. W. P. Berry. The out-of-town guests were Mr. and Mrs. A. E. Watson and Mr. and Mrs. C. M. Martin of Springfield, relatives of the bride.

The couple were the recipients of many beautiful and useful gifts in gold and silver.

Mr. and Mrs. Kilian left Monday night on their wedding trip for Chicago, via C. & A., where they will spend a few days and from there they will go to Kalamazoo, Mich., where they will make their home at 715 West Cedar street.

Friday evening, State Street church, Conservatory orchestra.

MEREDOSIA WILL HAVE ALL NIGHT PHONE SERVICE

Directors Determine on This Plan at Recent Meeting — Directors and Officers Chosen.

The directors of the Farmers & Merchants Telephone company of Meredosia held a meeting in the office of the Ray hotel Saturday afternoon. Joseph Schmitt and H. L. Depp were elected directors for a term of three years and afterwards the directors met and elected their officers as follows:

President—W. D. Meier.
Vice President—Joseph Schmitt.
Secretary—L. F. Berger.
Treasurer—W. J. Hale.

The directors then took important action by deciding upon the motion of Mr. Schmitt to arrange for all night service. Mr. Schmitt was sure the desire of every patron of the company in the country and of practically all those in town to have a 24-hour service and this was decided upon by unanimous vote. The resignation of Mrs. Bertha Geiss, who has been operator of the exchange for several years past, was accepted to take effect February 1. The board was reluctant to lose Mrs. Geiss, whose services have been very satisfactory. Miss Ina Bowling, who has been assistant operator for the past two years, was chosen for the vacancy. The directors were authorized to purchase a new electric motor, to build a coal house and to make some needed repairs. The affairs of the company are in very satisfactory condition, as indicated by the reports made.

MISS ELLA MINTER WILL LEAVE FOR NEW YORK NEXT WEEK TO SECURE THE NEWEST MODELS IN COATS, SUITS AND DRESSES FOR HER DEPARTMENT AT F. J. WADDELL & CO.

WILL PUT STREET CARS INTO GOOD CONDITION

Supt. Miser stated yesterday that two cars are to be received very soon from Decatur for use in the local street car service. Two cars will then be shipped to Decatur for a thorough overhauling. It is Mr. Miser's intention to put all the Jacksonville railway cars into good condition so that the service will be comfortable and ample until the purchase of new cars. It is his hope that new cars especially designed for the one-man service will be secured later on. These cars operate with a side door and folding step and are so planned that passengers entering the car do not interfere with those alighting.

J. W. McAllister shipped a car load of hogs and cattle to the East St. Louis markets Monday.

THREE WOMEN NAMED FOR MEMBERS OF LIBRARY BOARD

Burlington Will Make Effort to Lessen Engine Noise—Council Session Was Brief.

The most interesting business transacted at the city council session Monday morning was the announcement by Mayor Rodgers of the selection of three women as members of the library board. They are Mrs. O. F. Buffe, Mrs. William Floreth and Miss Fannie E. Wakely, and will succeed Judge M. T. Layman, T. H. Rapp and J. W. Walton, whose terms expired Jan. 1. The nominations were confirmed by unanimous vote. Mayor Rodgers announced a week or two ago privately his intention to name three women for the vacancies and thus have the board consist of five men and four women. Dr. C. L. Black is the president of the board, W. D. Doying is secretary and the other directors in addition to those named Monday are Dr. R. O. Post, Rev. J. W. Crowe, Charles Sanders and Mrs. U. G. Woodman.

Under department reports Mr. Martin stated that he had interviewed Burlington officials with reference to the establishment of a quiet zone for the special benefit of Passavant hospital, where noises from locomotives have proven very annoying, and said that officials expressed their willingness to at once notify their trainmen of what is needed to help the local situation. The officials did not consider that any ordinance was necessary, but believed that they could have their trainmen comply with the wishes of the city and suggested that arrangement be tried out. The understanding of the council is that if further action will be taken if the order given by the railroad management brings satisfactory results.

Mr. Pyatt read a statement from the Hartford Insurance company stating that the boilers at the water-works plant are in satisfactory condition. Mr. Vasconcellos stated that he had this inspection made after the fire in order to ascertain if any damage to the boilers had resulted. Mr. Vasconcellos also mentioned that the price of iron pipe is advancing steadily and that if pipe is to be used for Independence avenue, Hooker street and Alvauxter street, that possibly early purchases should be made. Then followed some discussion of the price of pipe and Mayor Rodgers expressed the view that the limit has been about reached for steel and iron products and that following the rule when prices get too high there automatically comes a return to normal, that something lower can be hoped for before a very long time.

Mayor Rodgers then nominated Mrs. O. F. Buffe, Mrs. William Floreth and Miss Fannie E. Wakely as members of the library board to serve three years, and they were confirmed. All of these women have been active in the civic life of Jacksonville and will undoubtedly take a large interest in the work in which they are to engage and will devote time and thought to library interests.

NO REVENUE STAMP ON MARRIAGE LICENSES.

J. L. Pickering, collector of internal revenue of this district, has issued a circular letter calling attention to the fact that the notice which has been appearing under the head, "Were you legally married?" had not been issued by the revenue department. The notice referred to states that wedding certificates issued during the past year are not genuine unless a ten cent revenue stamp has been attached, the same properly cancelled and with the initials of the minister who performed the ceremony and giving also the date. Mr. Pickering suggests that someone has inserted this advertisement for a practical joke and that the law does not require a revenue stamp upon certificates of marriage whether furnished by a clergyman or a magistrate, and further that a stamp is not required upon the license issued by the county clerk.
